

VIDEO THREE: Career Opportunities

Andrea Dolak: Within the next five years, I would like to see myself as a full-time program director or program coordinator at either a youth services place or a senior citizens' type of activity center. I would like to see myself grow in that position and possibly work up the ladder to something more administrative where I would be overseeing more people like me.

Victoria Kassab: In five to seven years, I see myself working in a children's hospital. Definitely. Probably, I'll have kids of my own, but I want to work in a children's hospital. I think, just children that are sick, that are in the hospital, and/or have some disability of any kind, they just need that pick-me-up in the middle of the day. I would love to be able to make their day, make them happy, and be there to talk to them. It's really important to me that kids be happy because they're our future and you can make a difference right now in their lives.
