

*THE INTERINSTITUTIONAL CONSORTIUM
FOR INDIGENOUS KNOWLEDGE (ICIK)
PRESENTS:*

An Emerging Scholarship of Cross-
Cultural Engagement

Craig A. Hassel, Ph.D.
University of Minnesota

Dr. Hassel will discuss an emerging form of scholarship new to the academy that moves beyond conventional scientific inquiry. This scholarship asks faculty to develop their skills in “cross-cultural engagement”(CCE) as a prerequisite to the inquiry process. Professional scientists must be able to temporarily withhold the impulse to force all of nature into the orthodoxy of western science, or to automatically impose these knowledge structures as though they are the only means to gain legitimate understanding of the world.

Wednesday, November 28th
12:00 – 1:00pm
